EACR-AICR Travel Fellowship

Deadline	There are three deadlines each year for the submission of applications: 31 March , 31 July and 30 November .
Description	The EACR (European Association for Cancer Research) Travel Fellowship scheme, supported by AICR (Association for International Cancer Research) , typically provides awards of up to €2500 (or €4000 match-funded) to fund collaborative or educational trips to centres of excellence around the world and attendance at training courses and workshops. The scheme is designed to assist postgraduate students and early-career researchers with less than 10 years post-doctoral experience.
Funding	<ul style="list-style-type: none"> • The value of each award is typically up to 2,500 Euros - exceptions will be considered where a strong case can be made. • Longer-Stay Awards: Where a longer fellowship is desirable, perhaps comprising two periods of research collaboration, EACR will provide 50% match funding up to 4,000 Euros. Applicants must clearly indicate the source of match funding on such applications as EACR will wish to make contact with the co-funders.
Eligibility	The scheme is open to those who have been Student or Active members of the Association for at least 12 months prior to the application and all applicants must be sponsored by two members of the EACR.
Link	➤ http://www.aicr.org.uk/EACR-AICRTravelFellowship.stm

EMBO Long-Term Fellowships

Deadline	Opens 6 weeks prior to the application deadline; 1 January for the 15 February deadline and 1 July for the 15 August deadline.
Description	<p>The EMBO (European Molecular Biology Organization) Long-Term Fellowships are awarded for a period of up to two years and support post-doctoral research visits to laboratories throughout Europe and the world. International exchange is a key feature in the application process.</p> <p>All fellowships must involve movement between countries. The receiving institute or the applicant's nationality must be from one of the EMBC Member States.</p>
Funding	<ul style="list-style-type: none"> • The stipend is a subsistence allowance and is intended to cover the cost of living in the host country. Subsistence rates depend on the country being visited. • EMBO provides additional allowances for dependent children (i.e. children under the age of 18). Those allowances depend on the country being visited. • The travel allowance is intended to cover travel costs for the fellow and his family to and from the receiving institute. The travel allowance further includes half a month's stipend to contribute to relocation costs. <p>For detailed benefit: http://www.embo.org/funding-awards/fellowships/long-term-fellowships#benefits</p>
Eligibility	<ul style="list-style-type: none"> • Applicants must hold a doctorate degree or equivalent at the start of the fellowship. • Applicants who already hold a PhD degree at the time of application are eligible to apply only if they passed their PhD exam in the two years prior to the respective application deadline • Applicants must have at least one first author publication accepted in press or published in an international peer reviewed journal at the time of application. <p>For detailed eligibility criteria applicants should read the Long-Term Fellowships guidelines.</p>
Link	<p>➤ http://www.embo.org/funding-awards/fellowships/long-term-fellowships#about</p>

EMBO Courses & Workshops

EMBO (European Molecular Biology Organization) offers the largest number of life science events in Europe. **EMBO Courses & Workshops** funds approximately 80 events attracting more than 8,000 participants every year.

Funding is available to organize **conferences, EMBO | EMBL symposia, ESF | EMBO symposia, workshops, EMBO | FEBS lecture courses, Global Exchange lecture courses** and **practical courses**, as well as for **keynote lectures**.

[Travel grants](#) support the attendance of participants from countries with less-developed scientific infrastructures.

EMBO assists the organizer with the design of a poster, set-up of a website and registration system, and with promotion of the event.

	DEADLINE	INFO
Conferences & Conference Series	Annual application deadlines: 1 March and 1 August for conferences planned for the following year.	http://www.embo.org/funding-awards/courses-workshops/conferences#about
Workshops	Annual application deadlines: 1 March and 1 August for conferences planned for the following year.	http://www.embo.org/funding-awards/courses-workshops/workshops#about
Global Exchange Lecture Courses	Annual application deadlines: 1 March and 1 August for courses planned for the following year.	http://www.embo.org/funding-awards/courses-workshops/global-exchange-lecture-courses#about
Practical Courses	Annual application deadlines: 1 March and 1 August for courses planned for the following year.	http://www.embo.org/funding-awards/courses-workshops/practical-courses#about
Keynote Lectures by EMBO Members	Application deadlines: 1 March, 1 June, 1 September and 1 December .	http://www.embo.org/funding-awards/lecture-grants/keynote-lectures#about
ESF EMBO Symposia	Annual application deadline: September 15 for symposia taking place at least 18 months later.	http://www.embo.org/funding-awards/courses-workshops/esf-embo-symposia#about

EMBO Lecture grants

Meeting organizers can apply for **EMBO lecture grants** to support:

LECTURE GRANTS	DEADLINE
<p>Keynote Lectures by EMBO Members A keynote lecture by an EMBO Member at major international scientific meetings about their latest research.</p>	<p>Application deadlines: 1 March, 1 June, 1 September and 1 December.</p>
<p>Women in Science A non-scientific lecture at an EMBO funded event addressing issues relating to women in science, including discussions about the reasons for the underrepresentation of women in the higher ranks of science/academia; reports on initiatives that redress that imbalance, e.g. institutional change initiatives, special training, support activities, mentoring programmes, etc.</p>	<p>Applications accepted throughout the year</p>
<p>Science Policy A non-scientific lecture at an EMBO funded event addressing the policy implications of science and technology e.g. discussions about ethics, economics, politics, and law.</p>	<p>Applications accepted throughout the year</p>
<p>EMBO Global Exchange Lecture Series A series of lectures at several institutions to enhance collaboration between researchers worldwide.</p>	<p>Applications accepted throughout the year</p>
<p>EMBO Young Investigator Lecture A research lecture given by an EMBO Young Investigator at national or international meetings.</p>	<p>Applications accepted throughout the year</p>

With the **exception** of **EMBO Keynote Lecture** support, **lecture grants can be applied for in addition to [EMBO Courses & Workshops](#) funding.**

Roche Award for Antibody-based Cancer Therapy Research

Deadline	August 15, 2013
Description	<p>Roche pRED's Discovery Oncology unit in Penzberg invites authors to submit abstracts which describe their scientific work in the field of tumor selective targets.</p> <p>Abstracts will be reviewed by a panel of experts and selected for presentation and awards on the basis of scientific merit. The ten best contributions will be elected and the authors will be invited to the Roche Penzberg campus for oral presentation and poster discussion on November 14th and 15th, 2013.</p>
Funding	The three winners will be selected at the symposium and receive an award of 4,000 €, 2,000 €, and 1,000 € , respectively.
Eligibility	Qualified applicants include graduate students and postdoctoral fellows in Europe .
Link	➤ http://www.roche.de/biotechnologie/1st-pred-in-oncology.html?sid=ace07c706975413bbcf801241b8bc7fd#Call-for-Abstracts

Nature Awards for Mentoring in Science – Italy (2013)

Deadline	20 August, 2013
Description	For its annual awards for science mentorship in 2013, Nature invites nominations of outstanding scientific mentors in Italy .
Funding	Two prizes of €10,000 will be awarded, one for a mid-career mentor and one for life-time achievement in mentoring.
Eligibility	<ul style="list-style-type: none"> • Nominees for an award may be working in any discipline within the natural sciences. • Nominees should be resident in Italy at the time of the nomination.
Link	➤ http://www.nature.com/nature/mentoringawards/italy/index.html

COST (European Cooperation in Science and Technology)

Deadline	<ul style="list-style-type: none"> For submissions in one of the nine COST Domains: 27 September 2013. Full proposals will be invited by 22 November 2013 for submission by 24 January 2014. For Trans-Domain Proposal (TDP) submissions there is first a proposal registration deadline on 27 September 2013, followed by a proposal submission deadline on 8 November 2013.
Description	<p>COST is one of the longest-running European instruments supporting cooperation among scientists and researchers across Europe. COST is also the first and widest European intergovernmental network for coordination of nationally funded research activities. COST is organised in nine broad Domains (including Biomedicine and Molecular Biosciences; Chemistry and Molecular Sciences, Technologies and Physics and Nanosciences, etc).</p> <p>Applicants are invited to locate their topic within one domain. However, inter-disciplinary proposals not fitting readily into a single domain are particularly welcome and will be assessed separately.</p>
Funding	<p>The support will cover the costs of networking activities such as meetings (e.g. travel, subsistence, local organiser support), conferences, workshops, short-term scientific exchanges, training schools, publications and dissemination activities.</p> <p>COST does not fund the research itself.</p> <p>Financial support for an action of 19 participating countries is in the range of EUR 130 000 p.a., normally for four years, subject to available budget.</p>
Eligibility	<p>The Proposer must be affiliated to a legal entity based in a COST Member Country or Cooperating State. The network must be composed by researchers affiliated to legal entities from at least five different COST Member Countries/Cooperating State.</p>
Information	<p>➤ http://www.cost.eu/participate/open_call</p>

ESF (EUROPEAN SCIENCE FOUNDATION) RESEARCH CONFERENCE 2013.

Deadline	1st October 2013
Description	<p>The European Science Foundation invites researchers to submit proposals for high-level research conferences within the framework of its Research Conferences Scheme.</p> <p>The ESF Research Conferences Scheme is a high-level conference programme in partnership with national and international organizations, including universities. The Scheme provides the opportunity for the world's leading scientists and other participants, including young researchers, to meet in an informal setting for discussions at the highest level on the most recent developments in their fields of research.</p>
Eligibility	The call is for the following scientific domains :Molecular Biology+ . The topics should be at the forefront of scientific research and should be interdisciplinary .
Link	➤ http://www.esf.org/serving-science/conferences/call-for-conference-proposals.html

Premio “Cecilia Cioffrese” - Fondazione Carlo Erba.

Scadenza	15 luglio, 2013.
Descrizione	<p>La Fondazione Carlo Erba intende premiare le migliori ricerche, che possono costituire base di programmi futuri, eseguite da giovani laureati italiani nei seguenti campi:</p> <ul style="list-style-type: none">• cancro• malattie virali <p>A tal fine bandisce per l'anno 2013 un concorso ad un premio di euro 10.000.</p> <p>Il premio è riservato a laureati in Medicina e Chirurgia, in Scienze Biologiche, in Farmacia, in Chimica e Tecnologia Farmaceutiche, in Chimica, e in altre discipline biomediche.</p>
Link	<p>➤ http://www.fondazionecarloerba.org/index_attivita.htm</p> <p>➤ PREMIO CECILIA CIOFFRESE 2013 (PDF)</p>

Premio “Marisa Colbacchini” - Associazione Studi sull’Industria della Salute e Fondazione Carlo Erba.

Scadenza	15 luglio, 2013.
Descrizione	<p>ASIS, Associazione Studi sull’Industria della Salute, insieme a Fondazione Carlo Erba, istituisce un premio per dottori di ricerca intitolato alla memoria di Marisa Colbacchini.</p> <p>Il premio sarà assegnato a un dottore di ricerca che durante il suo periodo di dottorato abbia svolto ricerche particolarmente innovative e che possano costituire base di programmi futuri nel campo delle malattie oncologiche</p> <p>A tal fine bandisce per l'anno 2013 un concorso ad un premio di euro 5.000.</p> <p>Il premio è riservato a dottorandi del XXIV e XXV ciclo che abbiano conseguito il titolo alla data di scadenza del bando in oggetto.</p>

Bandi “FUV Post-Doctoral Fellowship 2014” - Fondazione Umberto Veronesi.

Deadline	August 31, 2013
Description	Science progresses anywhere there is true exchange. Exchange of experience, know-how, procedures, solutions and results. For this reason, Fondazione Umberto Veronesi promotes a Culture of Science without boundaries, favouring professional training of the most deserving scholars from Italy and abroad .
Information	<ul style="list-style-type: none"> <p>• Post-doctoral Fellowships</p> <p>12-month long Research Grants open to graduates in Medical Science, Surgery or similar degrees, having clinical and/or post-doctoral research experience</p> <p>Learn More</p> <p>• Post-doctoral Fellowships Rome</p> <p>12-month long Research Grants addressed to graduates in Medical Science and Surgery and similar degrees having clinical and/or post-doctoral research experience resident in the Region Latium</p> <p>Learn More</p> <p>• Post-doctoral Fellowships - 6 months</p> <p>6-month long Research Grants open to graduates in Medical Science, Surgery or similar degrees having clinical and/or post-doctoral research experience</p> <p>Learn More</p> <p>• Young Investigator Research Programme</p> <p>Public competition for the granting of economic contributions concerning research projects whose aims are to describe the processes which lead to metabolic and molecular changes that protects against age related disease in the field of oncology, cardiology and neuroscience</p> <p>Learn More</p>

BANDI GIÀ SEGNALATI

Wellcome Trust Massachusetts - Institute of Technology (MIT) Postdoctoral Fellowships.

Deadline	<ul style="list-style-type: none"> • 12 July 2013 • Shortlisted candidate interviews: 13-15 November 2013
Description	<p>This scheme offers opportunities for postdoctoral scientists to undertake research at the interfaces between biology/medicine and mathematics, engineering, computer, physical or chemical sciences, firstly at MIT and then at a UK institution.</p> <p>Candidates will be expected to identify an important biomedical research question and to propose a personal interdisciplinary training programme to achieve their research aims.</p> <p>The aim is to support those who will train in a new research area that is complementary to, but distinct from, their current field of expertise, to enable an interdisciplinary approach to their research question - e.g. you might be a physicist wanting to work on a biology-based programme, or a biologist wanting to undertake a bio-engineering project.</p>
Funding	<p>The fellowship is for four years full-time, with the fellow based at MIT for two to three years (Phase 1) before returning to a host institution in the UK for the remainder of the award (Phase 2).</p> <p>For Phase 1, the Wellcome Trust will provide a stipend, at a level to be determined by your MIT faculty sponsor(s), and additional support to cover miscellaneous expenses including travel, health insurance and small items of equipment. The MIT faculty sponsor(s) will meet all research costs.</p> <p>For Phase 2, the Wellcome Trust will consider providing an appropriate salary for the fellow, research expenses (to cover materials and consumables, animals, if justified, and modest equipment) for the one- to two-year period back in the UK.</p>
Eligibility	<p>These awards are open to individuals with a relevant connection to the European Economic Area.</p> <p>If you have already spent a year or more training or working in an academic or research institution in the United States, you are not eligible to apply to this scheme.</p> <p>You should be about to submit your doctoral thesis or have up to, but no more than, three years' postdoctoral experience from date of your PhD viva to the deadline for applications to the scheme.</p> <p>You may have a background in any appropriate field of study (e.g. biology or medicine or chemistry or physics) but you must propose to address an important biomedical research question.</p> <p>The proposed research should fall within the Wellcome Trust's normal funding remit.</p> <p>You will require:</p> <ul style="list-style-type: none"> • an MIT faculty sponsor(s) who can guarantee that MIT will meet all your research costs while you are based in their laboratory, including research expenses and access to equipment - he/she must have a contract of employment at MIT and have tenure beyond the duration of the proposed fellowship • a UK mentor who will provide you with independent support and advice for the duration of the award. <p>Resubmissions are not allowed.</p>

Fiscal Year 2013 (FY13) Defense Appropriations Act- Programmi di finanziamento per la ricerca biomedica.

The Fiscal Year 2013 (FY 2013) Department of Defense Appropriations Act provides research funding for peer reviewed programs managed by the Department of Defense (DoD) office of Congressionally Directed Medical Research Programs (CDMRP).

Each Program Announcement may be downloaded from the Grants.gov website (<http://www.grants.gov>), the CDMRP website (<http://cdmrp.army.mil>), and the CDMRP eReceipt website (<https://cdmrp.org>) upon its release.

All pre-applications must be submitted electronically to the CDMRP eReceipt System <https://cdmrp.org>. Full applications must be submitted electronically to the Grants.gov website <http://grants.gov>.

For more information about the CDMRP, previous awardees and Program Announcements please visit the website at <http://cdmrp.army.mil>.

Armenise Harvard Foundation - Career Development Award Program

Deadline	July 15 each year.
Description	<p>The Giovanni Armenise-Harvard Foundation has funds to support the development of talented scientists and to contribute to the establishment of novel areas of research in biological sciences in Italy.</p> <p>The Career Development Award provides three to five years of support for newly independent scientists at an agreed host institute in Italy. It is intended to foster the development of outstanding scientists and enable them to expand their potential to make significant contributions to their field of research.</p>
Funding	<ul style="list-style-type: none"> • The Award will initially be granted for three years, will be available from July 1 each year and will be distributed annually at a rate of \$200,000 per year per scholar. • Funds can cover salaries for the scholar (commensurate with position at the host institute), technicians, junior scientists, research supplies or administrative support required for the program. • The host institute must provide the facilities, equipment, and infrastructure necessary to carry out the proposed research. However, up to 25% of the funds can be used for administrative costs associated with the program in the host department.
Eligibility	<p>Candidates must:</p> <ul style="list-style-type: none"> • Be young, emerging scientists with demonstrated productivity and the capacity to function as an independent investigator. Experience of working with or at HMS is an advantage but not essential. • They should have a minimum of 3 years of postdoctoral research experience in basic biological sciences (of which at least two years should be abroad) and be no more than 10 years beyond their Ph.D. • Be researchers not currently living in Italy who wish to enter the Italian research community. • Have an agreement for development of a novel research area in a suitable host institution in Italy. • Applications from candidates who have a pre-existing appointment at an Italian host institute will not be considered, although the offer of a tenure-track position is desirable.

Premio Sapio per la Ricerca Italiana - XIV Edizione.

Scadenza	31 luglio 2013
Descrizione	Il Gruppo Sapio, in accordo con diversi Centri di Ricerca ed Università, istituisce il Premio Sapio per la Ricerca Italiana per l'anno 2013 con lo scopo di favorire la ricerca in campo scientifico, tecnologico e socio economico, per il progresso civile e sociale.
Eleggibilità	<p>I premi sono riservati a rilevanti contributi, anche interdisciplinari, per l'avanzamento della ricerca in campo tecnico-scientifico e socioeconomico. Tali risultati devono essere conseguiti nel corso del triennio precedente alla data di pubblicazione del bando di concorso e devono essere stati svolti ed aver apportato concreti risultati negli ambiti di riferimento.</p> <p>Le candidature al Premio devono essere presentate e garantite da:</p> <ul style="list-style-type: none"> - Presidenti e Soci effettivi delle maggiori Accademie; - Presidi di Facoltà, Direttori di Dipartimento, Professori delle discipline oggetto delle ricerche candidate o di discipline affini, appartenenti ad Università e Politecnici; - Direttori di Istituti e Centri di Ricerca; - Dirigenti di centri di ricerca aziendali; - Dirigenti d'azienda. <p>Non saranno prese in considerazione autocandidature. Possono essere accettate candidature già presentate nelle passate edizioni.</p>
Budget	<p>Per la 14esima edizione del Premio sono assegnati 3 premi, ciascuno per un importo in denaro pari a 15.000 Euro, suddivisi in 3 sezioni:</p> <ol style="list-style-type: none"> 1. Sezione Medicina, Biotecnologie e Salute Il Premio viene conferito a un ricercatore impegnato nell'ambito sanità, biotecnologie, salute e sociale. 2. Sezione Industria Il Premio viene assegnato a un ricercatore impegnato nella Ricerca applicata. 3. Sezione Junior Il Premio viene assegnato a un ricercatore che non abbia ancora compiuto il 36° anno d'età al 31/12/2013 e che si sia contraddistinto per attività di Ricerca nel nostro Paese oppure in un Paese straniero purché dimostri che nel frattempo è rientrato in Italia o che rientrerà entro il 31/12/2013 per continuare i suoi studi nel nostro Paese. In questa sezione sono ammessi tutti gli ambiti della Ricerca.

BANDI SEMPRE APERTI

Fondazione AIOM (Associazione Italiana di Oncologia Medica) - Finanziamenti per progetti di ricerca

Descrizione	La Fondazione AIOM si propone di promuovere, favorire e sostenere la ricerca clinica indipendente nell'ambito della prevenzione, diagnosi e cura di tutte le patologie di interesse oncologico. I progetti, di durata preferibilmente annuale, dovranno riguardare argomenti di ricerca spontanea NON sponsorizzata da aziende farmaceutiche o industrie elettromedicali.
Budget	Al momento della stipula della convenzione Fondazione AIOM erogherà il 50% della somma assegnata , dopo 6 mesi il 35% , ed al termine della Ricerca il restante 15% . La seconda e terza tranche verranno erogate solamente dopo presentazione scritta dello stato di avanzamento della ricerca da parte del Responsabile Scientifico e conferma scritta delle spese sostenute da parte del Responsabile Amministrativo della Istituzione di appartenenza.
Eleggibilità	Associati AIOM in regola con il pagamento della quota associativa
Informazioni	↗ http://www.fondazioneaiom.it/default2.asp?active_page_id=763

DAAD /ROCHE Diagnostics Postdoctoral Programme

Descrizione	Il DAAD e la Roche Diagnostics GmbH offrono borse per coprire posti di ricerca avanzata presso il Centro di Biotecnologie di Penzberg nelle vicinanze di Monaco di Baviera. Le borse di ricerca sono accessibili a tutti i giovani e brillanti ricercatori post-doc provenienti da Paesi UE, Stati Uniti e Canada e coprono un periodo di ricerca della durata di un anno (con una possibile proroga di 12 mesi).
Budget	L'importo mensile della borsa è pari a 2.250 euro (sono possibili integrazioni di borsa per vincitori sposati) a copertura dei costi di viaggio a/r dalla sede di provenienza del candidato alla sede di svolgimento della borsa; assicurazione cumulativa a copertura dei rischi di malattia, infortunio e responsabilità civile verso terzi; corso di lingua tedesca ; sostegno nella ricerca di un alloggio .
Eleggibilità	Giovani post-doc di eccellente profilo scientifico per i quali un'esperienza di ricerca in ambito industriale costituisca un importante passo nella qualificazione della propria carriera professionale. I candidati dovranno avere conoscenze in almeno uno dei seguenti ambiti disciplinari: chimica, biochimica, biologia molecolare, biologia cellulare, bioinformatica, biotecnologie, Protein Engineering, Immunologia, Oncologia, In-vivo Imaging . SETTORI DISCIPLINARI: Scienze diagnostiche, con particolare attenzione ai seguenti settori di ricerca: 'Antibody generation and optimization; Biacore for thermodynamics; Cellular analytics; Expression systems Immune effector cell recruitment; Mass Spectrometry/HPLC; New optical detection principles; Non-invasive imaging technologies; Novel label conjugates; Novel methods for immunogen synthesis; Nucleic acid chemistry/Peptide chemistry; Organic chemistry of dyes and solid phases; Pharmacological testing; Protein purification, analytics and chemistry; Recombinant proteins/antibodies; Stem cells; Target identification/validation'.

Sergio Lombroso Fellowships in Cancer Research - Collaborazione scientifica tra Italia e Israele.

<p>Descrizione</p>	<p>IL PROGRAMMA SERGIO LOMBROSO ha come obiettivo promuovere la ricerca sul cancro e favorire i rapporti di collaborazione scientifica, in tale campo, tra Italia e Israele, attraverso il prestigioso Istituto Scientifico Weizmann in Israele. A tal fine è stato costituito un fondo i cui interessi sono destinati a finanziare annualmente un Premio Internazionale e un programma di Borse di Studio per sostenere la ricerca sul cancro.</p> <p>Le Borse di studio sono destinate a ricercatori italiani che mirano ad approfondire la ricerca sul cancro presso l'Istituto Weizmann</p>
<p>Budget</p>	<ul style="list-style-type: none"> ✓ Dottorato o PhD Studies: Compenso annuo di circa 17000 \$ ✓ Post-dottorato: Compenso annuo di circa \$ 22500 per studi di post-dottorato e biglietto A/R Italia e Israele. ✓ Visiting Student e Visiting Scientist: Il compenso viene concordato in funzione della qualifica e del programma di ricerca
<p>Eleggibilità</p>	<p>Tipo di ricerca Ricerche su espressione di oncogeni, geni onco-soppressori, apoptosi, controllo del ciclo cellulare, traduzione di segnale, terapia genica, terapia immunologia, altri campi di ricerca da concordare.</p> <ul style="list-style-type: none"> ✓ Visiting Student Sono aperte a: candidati iscritti all'ultimo anno Accademico del Corso di Laurea, a un Ente di Ricerca Pubblico o a candidati iscritti al corso di dottorato in Italia, che hanno concordato un soggiorno di 6 o 12 mesi presso l'Istituto Weizmann. ✓ Dottorato o PhD Studies. Il bando è aperto a candidati in possesso di M.Sc. o M.D. La durata è max fino a quattro anni e mezzo. Il programma viene scelto tra quelli in corso di attuazione presso l'Istituto Weizman. ✓ Post-dottorato. Il programma è aperto ai candidati in possesso di PhD o titolo equivalente. (entro i due anni dal conseguimento del titolo). Fellowships Programme Union for International Cancer Control (UICC)

The **Fellowships Programme** is a core activity of **UICC** and currently administers five international fellowships and plays a major role in the Organisation's mission and vision.

The fellowships provide opportunities for **professional development for cancer investigators, clinicians, nurses, and cancer society staff and volunteers.**

RAPID INTERNATIONAL TRANSFER OF CANCER RESEARCH KNOWLEDGE AND CLINICAL TECHNOLOGY - International cancer technology transfer fellowships (ICRETT)	
Description	The objectives of this ICRETT fellowship , whose duration is usually of 1 month , are to facilitate rapid international transfer of cancer research and clinical technology , to exchange knowledge and enhance skills in basic, clinical, behavioural and epidemiological areas of cancer research and cancer control and prevention and to acquire appropriate clinical management, diagnostic and therapeutic expertise for effective application and use in the home organisation upon return.
